

The Physicians Are Careful

Anxious, Not to Arouse False
Hopes By Too Buoyant
Bulletins.

Prince of Wales Now a General—
New Field Marshals
Appointed.

London, June 26.—Sir Frederick
Treves, Sir Francis H. Laking and Sir
Thomas Barlow are again spending the
night within Buckingham Palace, and
have arranged for Sir Joseph Lister to
join them in consultation in the morning.

When a representative of the Associated Press applied at the palace after midnight, just as the building was being closed up for the night, it was learned that there was nothing to be added to the last bulletin, that King Edward's condition continued to be satisfactory. The representative of the Associated Press further ascertained with regard to the brief and, to some extent, vague character of the bulletins, which give no information as to the King's temperature, pulse, and such other details, which reasons have been much complained of in some quarters, that this is not due to a desire to conceal anything or to apprehension of the result of His Majesty's illness. The doctors had the mind, and in view of the fact that the crisis had not been passed, they were determined to couch their bulletins in the most guarded language, so that the hopes of the public should not be unduly buoyed up.

The Duke of Connaught, commanding the forces in Ireland and the Third Army Corps, and Sir Henry Wylie Norman, general Indian Staff Corps, have been promoted to the rank of general. The Prince of Wales has been appointed to the rank of general.

Thousands of persons visited Westminster Abbey today for the sake of viewing even from the street, what would have been the centre of the national festivities.

Material and other results of the post-mortem of the coronation are cropping up hourly. Steamers from all parts of the world, which timed their sailings to bring in passengers for the coronation, are now reaching England constantly. When the news of the King's illness is received on board, there is consternation and the bitter disappointment of the passengers is quite pitiful to witness.

Litigation is already commencing over contracts made with regard to seats, accommodations and other arrangements dependent upon the coronation and the naval review.

The British fleet will remain intact at Portsmouth next week, but several of the foreign war vessels will leave there tomorrow.

Of the feeling in parliament, T. P. O'Connor, an Irish Nationalist member, writes the following for the Associated Press: "There is a great deal of real sympathy; there are certain circles in which the King has not kept his hold, but by the great public, who are little interested in the coronation, the King is liked, the fact of his coronation is a good fellow, with a sensible head. The sympathy for His Majesty is perhaps stronger in Liberal and even Irish circles than among Conservatives. The latter have a secret feeling that His Majesty is not unfriendly to Ireland, and for this I believe there is some foundation. In any case, the man has been struck down at the most glorious moment of his life, and the pity and the tragedy of this appears to every one."

"In the event of the death of the King, it would involve the immediate prorogation of parliament and the dropping of all legislative measures now before parliament. The members would again have to take the oath to a new sovereign. The Prince of Wales is young and inexperienced, and he is, of course, without the authority which years of experience and sound judgment gave his father. The Prince is said to have strong views in favor of self-government drawn from his recent experiences on colonial tours. But on all hands there is apprehension as to the future, and England is passing through one of her worst hours."

SALT LAKE FIRE.
Alarming Report as to Extent of the Damage.

Salt Lake, Utah, June 25.—The entire business portion, including telephone exchange, had been destroyed at 2:15 o'clock today, when wire communication was cut off. The loss cannot be given now.

UNITED STATES NOMINATIONS.
Candidates for Governor in Pennsylvania and Minnesota.

Erie, Pa., June 25.—Ex-Governor Robert Pattison, of Philadelphia, was nominated for Governor of Pennsylvania today by the Democratic state convention.

Minneapolis, Minn., June 25.—The Democrats today nominated L. A. Roseng, of Cannon Falls, for Governor.

KIEL REGATTA.
Large Gathering to Take Part in the Races.

Kiel, Germany, June 25.—Ninety-five racing and 52 pleasure yachts are now lying in the roadstead here awaiting the beginning of the regatta tomorrow. There are 17 competitors in the special class tomorrow, two French, two English, one American, one Swedish and eleven German yachts.

The recent performances of Emperor William's American-built schooner yacht Meteor on the Elbe are considered to have been good. Next Friday the Meteor will meet her Elbe competitors again; the Gieley, owned by Cecil Quinten, of England, and designed by Fife, will race here today, and it is believed that the Meteor will find her strongest competitor in the Fife boat.

A FAMILY NECESSITY.
"Owing to artificial modern life, almost everybody suffers more or less from constipation, torpid liver and sluggish kidneys and as Dr. Chase's Kidney-Liver Pills are the most prompt and thorough cure for these ailments, they have come to be considered a family necessity. Hosts of families would not think of being without them. One pill a dose, 25 cents a box."

INTERCESSION.

Today! The greatest Day of many days!
Expectancy's most fond and glorious hour!
The High-top splendour of Britannia's power!—
Cyclopean Empire of a world's amazement!
A morn for kings; a coronated time
Of jubilation far and wide; a spell
Which surely over many a varied clime
Whose homage guards the regal citadel.
"Long live the King!" resounds from many voices:
"Long live King Edward!"—Hark! The nation's sob!
Is this a grief when joy, supreme, rejoices?
Or the dread pulsing of earth's central throbs?
Alas! It is the King!
King Edward menaced by the mace of Death!
Death! now the Coronation-chair o'erhanging King!
Beneath the tremor of whose fatal wing,
Our dear-loved Sovereign nimbly draws the languid breath.

Today—the gloomiest Day of many days,—
Behold! an saddened world's solicitude
For one true Monarch, steadfastly imbued
With high devotion to his people's praise.
Not the first Edward's Coronation-chair
Can seat thee worthier—how thou art—
Not within the sombre Minister's air—
More nobly crown'd in an Empire's heart:
There dost thou rule in full collateral glory—
O Edward!—with our late, most noble Queen
Thou hast dash'd a splendour o'er our unity story
Thro' perfect Womanhood of Sovereign mien.
We pray—God Save the King!
Save our Edward to a ripe-full reign
Over Britain and the destinies that spring
From his realm's portentous quickenings:
May God in mercy spare our King and long sustain!

Victoria, B. C. **FREDERIC IRVING TAYLOR.**

CHEERING NEWS

(Continued From Page One.)

To be Knights Bachelors, the Hon. Henri Elzer Tachereau, puisne judge of the Supreme Court of Canada; the Hon. R. B. Pratt, president of the legislative council of Nova Scotia.

To be Companions of the Most Distinguished Order of St. Michael and St. George, Lt.-Col. Frederick W. G. Selby, Serjeant, P. G. Routh, Farrier Serjeant, A. Gillies.

Hon. E. Barton, premier of Australia, is made an ordinary member of the First Class Order of St. Michael and St. George.

A QUEBEC DILEMMA.
Quebec, June 25.—(Special.)—Notwithstanding the fact that the Secretary of State has issued a proclamation at Ottawa withdrawing the order for a federal holiday, June 26, and has so advised the Lieutenant-Governor of the various provinces, the Quebec government has declined to cancel the holiday. The following notice was issued by the Attorney-General of the province:

"The government of Quebec has decided not to rescind proclamation fixing June 26 as a non-judicial day, on the ground that such an abrogation would involve grave consequences in connection with judicial proceedings, the delay being too short in which to warn the parties interested, either as parties to the lawsuits or as officers of justice."

FINANCE BILL.
London, June 25.—The House of Commons today passed the third reading of the Finance Bill by 236 to 181 votes.

HUDSON'S BAY CO.
Profits Vastly Larger Than Last Year.

Montreal, June 25.—(Special.)—The annual report of the Hudson's Bay Company shows a profit of \$890,000, compared with \$340,000 in 1901. This good showing is due to higher prices now obtained for furs and increased land sales. A dividend of 15 shillings was declared.

TO CUT TIME.
Imperial Limited Next Year Will Clip Off Six Hours.

Montreal, June 25.—Sir Thos. Shaughnessy returned from his Western trip yesterday and announced that at the end of the present year the C. P. R. would have a permanent line from Atlantic to Pacific, all temporary structures having been replaced. Sir Thomas also said that next year the time of the Imperial Limited might be reduced six or seven hours.

COMING HOME.
Field Hospital Company Expected to Leave South Africa.

Ottawa, June 25.—(Special.)—A cablegram at the militia department from Surgeon-Col. Worthington, in command of the 10th Canadian Field Hospital Company, in South Africa, states that orders have been given for 40 days' advance of pay to the company. At the department this is taken to mean that in the course of a few days the hospital men will embark for home.

ENTOMBED IN WEIL.
Joshua Sanford Buried Alive But May Be Rescued.

Paris, Ont., June 25.—(Special.)—Joshua Sanford is imprisoned on the Skelly farm at the bottom of an 86 foot well. He has been in his perilous position for 32 hours, in spite of all efforts to rescue him, but he is still alive and well. Sanford has been several times spoken to by the rescuers, and he replies he is well and fairly comfortable, but is naturally impatient to be released. At 6 o'clock this morning he asked his rescuers to dig another well besides the original one, and not attempt to dig the old one. This was at once begun, but at the time of writing they have only gone about 40 feet. A large crowd of willing workers is on the scene, but unfortunately no news of the steamer Portland or Jennie had been received. It was reported at some time that some three weeks ago natives on Nunivik Island sighted a large vessel, supposed to be the Jennie, which was giving signals of distress and firing guns. The Indians were watching the vessel closely, when suddenly she disappeared. The fact that the Jennie has been so long unreported adds to the credit that is given to this report. The severe experience of the men, and the doubt regarding the safety of the Portland have naturally added to the uneasiness over the report concerning the Jennie. On account of the round-about way in which it came, and the impossibility of securing first hand verification of it, the report is not given the fullest credence at Nome, but the fact that the Jennie has been out of Seattle since May 1 lends color to the story.

SAW STEAMER SINK.
Story Told by Natives of Nunivik Island.

Seattle, Wash., June 25.—(Special.)—Steamer Ohio arrived this morning from Nome. She brings news from Nome up to June 10. Up to the time of her departure no news of the steamer Portland or Jennie had been received. It was reported at some time that some three weeks ago natives on Nunivik Island sighted a large vessel, supposed to be the Jennie, which was giving signals of distress and firing guns. The Indians were watching the vessel closely, when suddenly she disappeared. The fact that the Jennie has been so long unreported adds to the credit that is given to this report. The severe experience of the men, and the doubt regarding the safety of the Portland have naturally added to the uneasiness over the report concerning the Jennie. On account of the round-about way in which it came, and the impossibility of securing first hand verification of it, the report is not given the fullest credence at Nome, but the fact that the Jennie has been out of Seattle since May 1 lends color to the story.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. They give positive relief.

THE ONTARIO CONSERVATIVES

Leader Arraigns the Ross Government for Work of the Machine.

From Our Own Correspondent.
Toronto, June 25.—The Conservative Association of Ontario met last night at the Hotel Windsor. The following were present, including most of the Dominion and provincial Conservative members and defeated candidates:
J. J. Foy, M. P., president, E. Bristol, vice-president, in succession to G. F. Marter, who had withdrawn. Mr. S. Campbell moved the following resolution:

"Whereas, in the recent provincial elections, by large majority of the popular vote the Ross government was emphatically condemned; and whereas, by the unfair arrangement of gerrymandering of constituencies and by disgraceful tampering with the ballots, a superior advantage has resulted under which the administration clung to office; and whereas this association recognizes with satisfaction that many independent Liberals joined in condemnation of the machine of the Ross government;
"Be it therefore resolved, having regard to the grave perils which menace the future of this province by reason of fraud and crime, through which the administration of justice is being subverted, and the rights and franchises of the people, and give to the province pure and honest administration."

Mr. Whitney, supporting the motion, was greeted with enthusiastic cheers, the assembly rising to its feet. He said that the gathering had at no time since he had been connected with it, had the prospects of the Conservative party been as good as at present. There was no shadow of doubt that the by-elections of 1901 were carried by the Ontario government by means of fraud and crime. Not one human being was guilty of these acts has been punished, or has been put upon his trial, and the people who submit to this state of affairs cannot long remain a free people. As to the recent election, Mr. Whitney said no observer of current politics in the province of Ontario could fail to notice the gradual and steady change in public opinion and dissatisfaction which increased with the actions of the government of the province. In spite of the working of the machine and the consequent sums of money spent, the Conservatives would today have had a majority of the members of the legislature, if there had been an honest count of ballots. "There were in the position occupied because of crime committed by these servants of the government. There should be no alarm or hesitation on the part of Conservatives as to what their duty is in future. He exhorted every Conservative to stand up as far as the law stands, they will take hold of miscreants who have been guilty of the crimes he had referred to, and punish them and keep the law in motion with justice and been done. (Cheers.) With respect to the by-elections, he urged that the situation had changed from what it was four years ago, and the tendency of opinion today was towards the Conservatives and against the Ross government."

A vote of confidence in Mr. Whitney was adopted by a standing vote.

Mr. Whitney moved a resolution of sympathy with the King in his illness, which was carried.

Wood's Sarsaparilla builds up a broken brain system. It begins its work right, that is, on the brain.

MUSICAL ENTERTAINMENT.
Attracts Representative Audience Which Enjoys a Good Concert.

A large and representative audience attended the vocal and instrumental concert given at Institute hall last night under the patronage of Mayor Hayward by the pupils of Mr. E. G. Wickens, assisted by talented amateurs. The concert was a good one, and the musicians who took part performed their several parts with all credit. The orchestra, which was a full one, played with commendable precision, and in harmony. Its first number was an overture, Weber's "Der Freyschütz," which was well rendered. Miss Justine Gilbert followed with a violin solo, Faurer's "Swiss Air and Grand Zither," and after the orchestra had played a well received selection from Verdi's "Il Trovatore," Miss Edith Lombard, a talented vocalist, whose work on local platforms has won her great praise, rendered Jocelyn's "Berceuse." Her rich and pure contralto voice was heard to much advantage in that well known song, and she was loudly applauded.

Master J. F. Brooker played a cornet solo De Beriot's "Fifth Concerto," and after a waltz, "Only a Dream," Gaubert, he then played the orchestra "Pleyel's German Hymn," was played by a string quartet consisting of Miss A. M. Brooker, first violin, Master Frank Armstrong, second violin, Mr. J. Longfield, third violin, and Master J. F. Gordon, fourth violin. The orchestra opened the second part of the concert with a selection from "Marta," which was well played, although there was, if anything, a little too much emphasis on the "Soprano" part. Master J. H. Gordon was heard to advantage in a "cello solo," "Souvenir de Spa," Serravallo, and after a selection by the orchestra, Hamish McCunn's "Highland Memories," Master Frank Armstrong played "Polonaise's Second Polonaise," op. 21, and a good Polonaise was closed with the rendition by the orchestra of C. Volpi's descriptive piece entitled "A Battle Scene" introducing "The Rebels." The orchestra then played "Garrison bugle sounds the alarm," Garrison drums beat to arms—Anxiety of besieged—Rebel trumpet—Cannons—The rebels' storming—Loud shouts of triumph and bugling—The prayer—The shouts of the rebels—Kruzer's dream—The relief of Mafeking—The soldiers' order "Save the King"—Peace declared.

The personnel of the orchestra was as follows: Violins—Miss A. M. Brooker, Master Frank Armstrong; Leaders—Master J. F. Brooker, Miss N. Ruff, Miss Justine Gilbert, Miss Annie Lewis, Miss Ruby Sylvester, Miss Berri Moss, Master P. McQuade, Mr. W. Lawson, Master G. Harrison, Master H. Davies, Master V. Levy, Master H. Pimley, Master G. Phillips; Violas—Mr. J. Longfield, Mr. J. Talbot; Double Bass—Mr. Pimley; Cellos—Mr. J. Longfield, Master J. H. Gordon; Horns—Gordon Edwards; Cornets—Mr. T. F. Gold, Master J. S. Brooker; Clarinets—Mr. Rausch, Mr. H. Pike; Trombones—Mr. J. Clark, Master J. J. Ball; Tympani, Drums, Bells, Etc.—Mr. Anderson; at the Pianos—Miss Lily Brooker, Miss Nancy Harrison, Miss Ethel Edwards, Miss J. Collis, Miss Mary Moss. Accompanists—Mrs. Justine Gilbert, Miss Nancy Harrison, Miss Lily Brooker; Musical Director—Mr. E. G. Wickens.

The proceeds of the concert will be devoted to the purchase of books and shoes for the Protestant Orphanage.

"GRIPPI" HEADACHE, CATARRH.
Much suffering is due to the after effects of La Grippe, such as catarrh, catarrhal headache, inflamed nasal passages and of feverishness in the throat. Dr. Agnew's Catarrhal Powder is the sworn enemy of head, cold, headache and catarrh. It clears the throat and nasal passages and stops the pain over the eyes in ten minutes. It is a day's cure for colds. Sold by Jackson & Co. and Hall & Co.

FIGURES TALK!

The fifth annual meeting of the shareholders of the Crow's Nest Pass Coal Company was held in Toronto, March 7th.

The net profit of the year, after paying all operating expenses and all charges of every kind, amounted to \$207,818.39. After paying a dividend at the rate of ten per cent per annum, a balance of \$28,145.00 was carried forward to the credit of profit and loss.

This Company's assets are their coal mines and the Townsite of Fernie. Four years ago this Company had no transportation facilities, and their stock sold as low as eleven cents per share. Today their stock is selling at \$90.00.

The Similkameen Valley Coal Company Limited, assets are coal mines, timber, water power, agricultural and horticultural land, city waterworks and electric light plant, and the Townsite of Ashcroft, surrounded by the following resources: Gold, copper, silver, lead, iron, lime, fire clay, platinum and a fine stock raising country, and it is the melting centre of the Similkameen Valley, with a climate all that could be asked. Today you can secure an option on this Company's stock by paying ten cents per share down and ten cents per month until fully paid, with non-forfeiture clause. This price is subject to twenty-five cents advance without notice or as soon as transportation is assured. The present price is \$1.10 per share. Do not wait until it is too late, but get in on the ground floor and make a handsome profit. A purchaser of 100 shares now may gain a profit of \$8,900.00. Crow's Nest shares as an example. This would be a fair profit on an investment of \$10 per month for eleven months. We invite the fullest inspection of the Company's affairs by intending purchasers. For further information apply to the

Similkameen Valley Coal Company, Limited.

Before the Full Court

Judgment in Favor of the Engineers in the Income Tax Case.

Other Appeals Which Were Heard Yesterday—List For Today.

Argument was concluded yesterday morning in the appeal before the Full Court as to the right of the provincial government to collect income tax on the total salaries of the locomotive engineers, and the appeal was allowed with costs. This is a victory for the engineers, who contended that the government should not collect upon the full amount of their salaries, as they were compelled to keep up two homes while traveling, but should make allowance for this extra expense. Mr. Charles Wilson appeared for the appellants and Mr. McLean, deputy attorney-general, for the government.

In Lim Ah Tong v. Wing Chong Co., the appeal was allowed with costs. This was an appeal from a decision of Mr. Justice Martin in the County Court, in which he gave judgment for the plaintiffs on a claim for wages. It was the contention of the defendants that the man was employed by a sub-contractor. F. Higgins appeared for the defendant (appellants), and W. H. Langley for the plaintiff.

Judgment was handed down in McNaught v. Harvey, Van Norman & Co., a case which was heard at Vancouver. The appeal was dismissed with costs.

Mr. Justice Martin having taken the place of Chief Justice Hunter on the bench, the appeal in re the Okell & Morris Company was taken up. It was an appeal from the refusal of the Chief Justice to grant a writ of habeas corpus. Peters appeared for the appellant, Robertson; Mr. L. P. Du, K. C., for the company and the Bank of Montreal, and Mr. F. Higgins for Turner, Beeton & Company. Mr. Peters had just opened his argument when the star mingling Co. has been adjourned until the next sitting of the court, there being a possibility of a settlement being arrived at.

The list for today follows:

1. Re Okell & Morris (continued).

2. Re Assessment Act and Lot 1, Alberni.

3. Booker v. E. & N. Railway Co.

4. Ah Sam v. Robertson.

5. Pither v. Manley.

CHAMBERS.

In Hugh v. Dooley, to strike out notice of trial. Notice set aside with costs. Pooley for plaintiff, and Wootton for defendant.

Baillie v. Moiea, et al. stands over for two weeks, copies of any affidavits for plaintiffs to be served on defendant's solicitor at Nelson.

Noble Five and Last Chance, to postpone trial. Stand over till further order. Pooley for plaintiff, Lawson for defendant.

Irving v. Hayes, for short notice of trial. Order refused; costs in the cause. W. J. Taylor for plaintiff; Wm. Griffin for defendant.

Re Cecile Eliza Young, probate to seal probate. Order made upon filing of proper affidavits. Aikman for petitioner.

Re Rex. Stand over to a day to be fixed.

COUNTY COURT.

Mr. Justice Martin presided in County court yesterday and good progress was made with the long list of cases.

BUSINESS POINTERS.

A glance in at the large show windows at "Weller Bros." big store would almost convince one that they were standing gazing in upon a magnificent furnished and appointed dwelling house, so tastefully and uniquely are the different compartments arranged. Beginning with the kitchen, with a artistic cooking range, set up in one corner, with pipe leading upwards, as if to carry off the smoke, and a choice lot of kitchen utensils to match, with pantry and larder suitably arranged with dishes, etc., leading on to an art gallery of genuine reality to the scene. Next comes the dining-room, beautifully and tastefully furnished and arranged with everything necessary for comfort, and being of a fine and modern type. The drawing-room comes next, and is the very personification of elegance and luxury. Then comes the bedroom, a glimpse of which would go a long way in creating an impression of home-like happiness in the hearts of the most romantically inclined young man or woman. The dressing and arranging of the whole fabrication could not have been the work of a novice at the business or a pretence hand, but of one endowed with a considerable degree of artistic taste in matters domestic. No one should miss seeing this display and an invitation is extended to the young people of both sexes anticipating matrimony in the near future to drop around and take a rubber.

Young men should always bear in mind that ice-cream bought for their sweethearts at Lilly's ice-cream parlors does not cost her love for them, or make her appear at all frigid toward them, as they are catering to their heart's desire.

Two men cannot be said in favor of "Pacific beer" as a summer beverage, as careful analysis shows that nothing but the very choicest ingredients, with malt and hops, are used in its manufacture. It is both cooling, strengthening and invigorating when it is put in the slightest degree. It is put up and delivered to any address in quantities to suit the Pacific Bottling Works, 26 Store street, cold storage building, phone 44.

The Rickshaw Tea & Coffee company, 62 Fort street, are direct importers of the best brands of Ceylon teas and coffees, and give the public the benefit of wholesale prices.

The "Big B" cigar is not so big that you require a derelict to hold it up for you, but it is a "jelly smoker" the whole way through. H. Behnen & Co., are the manufacturers. When it's a smoke you want then ask for "The Big B" cigar, and you will have just what you want.

GOING CAMPING!

What the Doctors Say

Local Physicians Consider That His Majesty's State Is Most Critical.

Would Not Be Surprised at Death Supervening at Any Hour.

A few of Victoria's leading practitioners were seen yesterday with the view of securing from them a few ideas as to what was thought locally of the nature of the operation undergone by His Majesty on Tuesday. While adverse to express opinions for publication, the doctors all agree in one thing, and that is the grave seriousness of the case. In fact some went so far as to say that judging by what of necessity must be the imperfect details as furnished by the Associated Press, there could be very little hope. His Majesty had evidently put off the operation until the very last moment, as it is the practice here to have the subject operated on before an abscess has been formed. The term peritonitis is a general one applied to many different diseases in the neighborhood of the appendix, and as a rule it may be said that appendicitis will account for over ninety per cent. of cases of peritonitis. In the case of His Majesty, the affected point of the intestines was within an inch of the appendix, and according to the telegraphic reports of the operation, the appendix was not removed, but simply drained.

The great danger, however, the doctors thought, would arise from the fact that the operation had been postponed too long, and that the King being rather infirm, would not have his recovery from the shock all the more difficult. It was recalled by one doctor that a few years ago, when His Majesty, then Prince of Wales, fell and hurt his knee, his physicians were reported to have declined to take the risk of administering an anæsthetic.

In many cases of appendicitis the inflammation of the appendix is not possible in all cases to have the operation carried out as rapidly as was desirable, but in the case of His Majesty it was pointed out that if telegraphic reports are correct, in this matter the operation should have taken place last Saturday.

So critical did one doctor consider the present state of His Majesty, that he stated he would not be surprised to hear of his death at any hour.

KENNEDY'S CRIME.

Through Jealousy He Shot a Man in 1888.

Michael Kennedy—not the notorious Ben, as was inaccurately reported by a contemporary—who was released from prison a couple of days ago as a result of the King's clemency, shot and killed one Archer near Golden in 1888. Kennedy, it seems, married, and with his wife he went to Golden and started ranching in the vicinity of the town. Archer began to visit the house when Kennedy was working on his ranch, and Kennedy, who was insanely jealous, when he believed that his wife was unfaithful, and that Archer was the man in the case, lay in wait for Archer, and shot him. Hunter worked on the case and secured much of the evidence, as a result of which Kennedy was sentenced to life imprisonment after the trial before Mr. Justice Walker at Kamloops. Archer near Golden in 1888. Kennedy, it seems, married, and with his wife he went to Golden and started ranching in the vicinity of the town. Archer began to visit the house when Kennedy was working on his ranch, and Kennedy, who was insanely jealous, when he believed that his wife was unfaithful, and that Archer was the man in the case, lay in wait for Archer, and shot him. Slaughter Of Rebels

How the Insurgents Fought With Bravery Against Imperial Forces.

Cut to Pieces By Government Cavalry—Details of the Battles.

Government Troops Massacred Non-Combatant Villagers in Chihli.

According to advices received by the Empress of China, the rebellion in Chihli is by no means quelled, as was reported in the official despatches to Peking. The insurrection, which broke out in Kwangsi, is also gaining ground, the capital of Kwangsi—the large city of Kwei-lin—being besieged by the rebels at last reports and in immediate danger of being taken. In Hunan revolutionaries are assuming large proportions, and according to well informed authorities, China is on the verge of very serious troubles, the extent of which no man can foretell. The terrible massacres of the foreign-modelled troops of Viceroy Yuan Shih-kai, of Chihli, who destroyed no less than 37 large mud-walled towns and villages and ruthlessly massacred men, women and children, old and young, and pillaged the neighborhoods, has given a great impetus to the Chihli insurrection, and although the force which had gathered at Chihli-hsien under Ching Ting Pin, who, as will be remembered, slew the Emperor's son before taking the field, was defeated with such slaughter, other larger forces have since taken the field.

Correspondents of the North China Daily News in Chihli send many details to that paper, transmitted by cable. It seems that the force of 3,000 imperial troops who were defeated with loss by the rebels, were reinforced by 5,000 men, 6,000 infantry and 2,500 cavalry, with a battery of field artillery, a mountain battery and a detachment of sappers and miners. At Chihli-hsien, a force of 22,000 rebels had assembled awaiting the coming of the imperialists, and a battle lasting seven hours occurred. When the imperial troops were seen approaching, the rebels, who had thrown up low mud walls, breast high, for protection, left their trenches behind these walls, and marched out in line of battle. They rushed on bravely, though rashly, to the attack, but were stopped half way by a heavy fire of shot and shell from the troops, who had halted and taken advantage of what was offered. Charge after charge was made by the rebels, only to be driven back, and then, seeing a cavalry brigade deploying to attack them in the flanks, the rebels wavered, broke and fled, making for the walled camps, but the cavalry were on them before they had got within 300 yards of the cover, and a massacre occurred. Those who had got into their trenches and camps rallied, and by their fire drove off the cavalry and covered the retreat of their surviving comrades. With the retirement of the cavalry the imperial artillery poured an effective fire into the rebel camp, the city of Nankunghsien, and the rebels, taken to full into the hands of the imperialists.

The rebels made a long and desperate stand, their trenches being choked with dead and wounded, before they were made a stand at Chihli-hsien, where they held out for two days before suffering defeat. Two desperate sorties were made on consecutive days, and in the second many of the rebels were killed to 14 years of age took part. So impetuous was the rush that the troops were beaten back, and driven in three different directions. The surviving rebels then tried to escape to another part of the country, but were met by a force of imperialists under Taitai quan Taima, a relative of the viceroy, and badly cut up.

After the battle a body was found on the field under a pile of corpses, which was believed to be the leader, Ching Ting Pin, whose followers had evidently stood around and perished in the attempt to save the leader. In response, however, that the corpse was that of Lieutenant, Liu-Kun-sha, a military graduate, who had changed clothes with the leader, and Ching had escaped, garbed as a common insurgent. He is now at the head of 3,000 desperate characters, many of whom have followed his example and killed their wives and families to be enabled to fight to the death. They are recruiting to a great extent, and the rebel forces already number nearly 50,000. The rebels have two camps, which were presented to some of their leaders, who are the successors of the trained army of Seng Ko-lin, a Mongol prince, who used them against the Taipings, and who so pleased with their work that he gave them two emblems.

The Peking correspondent of the North China Daily News says: "From latest accounts from reliable sources, I find that the news given out by Peking officials of the victories and massacres of Yuan Shih-kai's forces in Chihli-hsien, Kuanlung-hsien and Wei-shien, have by no means pacified the rebels, whose ranks are being continually reinforced."

ally reinforced, and a bold front is being maintained against the government forces. In view of this the government forces have been obliged to retreat into the cities of Cheung, Shunte and Nankunghsien, where many of the regiments are being organized by the emperor's orders. The majority of these troops have been charged with wholesale plunderings and maltreating the inhabitants of the peaceful districts through which they had to pass to the disturbed districts, and when in the territory they have pillaged, burned and destroyed no less than 37 large mud-walled towns and villages, ruthlessly massacring all the inhabitants, old and young, male and female, who could not escape in time. This has been reported to the throne by a censor."

"MORGANIZING" IN CHINA.

According to despatches from China to the Tokio Asahi, an American syndicate has applied for a concession to build a railway from Peking to a point on the Yangtze opposite Kiangkiang, and has offered a sum of 1,200,000 taels for the repair of the two parks, should the concession be granted. The offer was referred to the Emperor. Despatched by a high Chinese official, and Her Majesty signified her consent, provided that the syndicate will guarantee the necessary capital for the building of the road. This concession is a very important one, for concessions have already been granted for lines from Peking to Hankow, and from Tien-tsin to Kankung, as well as from a line connecting these two cities. The syndicate, which is headed by the American syndicate, is said to be seeking a charter for a line from Amoy to Hankow, and a high official is supporting the application. The capital is placed at 20,000,000 taels.

PRETTY WEDDING AT CHEMINUS

Walter Dockrill and Miss Mabel Palmer United in Marriage Yesterday.

One of the prettiest weddings ever held on Vancouver Island took place yesterday afternoon at 3:30 o'clock at Cheminus, where Miss Mabel Claire Palmer, daughter of Mr. and Mrs. Edmund J. Palmer, was married to Walter J. Dockrill of New Westminster and Atlin. The ceremony was performed by the Rev. J. H. P. Rogers, of Cheminus, and the wedding hall of marguerites and smilax, broad bands of white satin ribbon marking off the seats reserved for the relatives and guests. A wedding bell of marguerites was suspended directly over the satin kneeling cushion.

Dr. H. P. Rogers, of Cheminus, and Mr. Daniel Dwyer, of Everett, acted as the officiant. Precisely at the prescribed hour the groom, and his best man, Mr. Henry C. Bourne, of New Westminster, stepped from the vestry to their places near the altar. Rev. J. H. P. Rogers, the pastor, following. Then to the strains of Lohengrin's wedding march, the bride pair filed slowly up the aisle. Miss Mabel Claire Palmer, the maid of honor, in a dainty gown of white organdy, duchess lace, and yellow chiffon, preceded the bride and her father, who gave her away. The impressive ring ceremony, in the Church of England was solemnized by the Rev. J. H. P. Rogers, after which the marriage register was signed. Meanwhile, the guests were making a glorious recessional, and the bride was a picture of youth and beauty, in her handsome gown of ivory white crepe de chene and lace, with a picture hat, and her husband swept out of the church.

Directly following the ceremony a big reception was held at the Palmer home, which had been attractively decorated in roses and other flowers in profusion. The library in yellow combinations, the drawing room in white and green, and the dining room in pink, some one hundred guests were gathered for the reception. From Victoria—Mr. and Mrs. J. H. Lawson, Mr. and Mrs. B. H. John, Mr. and Mrs. W. Baugh Allen, Mr. and Mrs. E. E. Blackwood, Captain and Mrs. George Roberts, Miss John, Miss Lawson, Mr. E. V. Bodwell, Mr. John Lawson, Mr. and Mrs. James Lawson.

From New Westminster—Mrs. Dockrill, Mrs. Bloomfield, Mr. Harry Bourne.

From Duncan—Mr. and Mrs. Fred. McMillan, Mr. and Mrs. James, Rev. and Mrs. Holmes, and Miss Mabel-Louise.

From Ladysmith—Mr. and Mrs. J. W. Colman.

From Seattle, Wash.—Mr. and Mrs. Chas. E. Penbody.

From Alameda, Cal.—Mrs. W. Porter and Miss Porter.

From Spokane, Wash.—Mr. T. J. Hubbard.

From St. Paul, Minn.—Miss Fannie Mead Lyon.

From Everett, Wash.—Mr. and Mrs. Leverich, S. Dwyer and Mr. Daniel A. Dwyer, Dr. and Mrs. W. C. Cox.

Eagles' excursion to Ladysmith July 1. Fare only one dollar.

News Of the Waterfront

Another of the Sealers off Japan Reported—Indrasamhu en Route Here.

Overdue H. F. Glade Posted as Missing at Loyds—Teas Sails Tonight.

Another of the fleet of five schooners hunting off the Japan coast, has been reported, the ship being the Indra-samhu, which arrived at Hakodate with 650 pelts. This news was given in a cablegram received by the Victoria Sealing commission yesterday morning. This makes a total of 2,610 skins taken by the four schooners reported to date, and the Dora Seward has not yet been heard from. The Geneva is the top-liner to date, she having taken 1,200 skins. The Dora Seward, the Triumph 455, five in all are hunting off the Japan coast, and seven others are hunting off the Copper Islands. The Japan fleet will go to the Copper and grounds after leaving the Japanese waters.

The schooner George W. Prescott, which was refused a license on the ground that it carried citizens who were debarré from sealing—was alleged to be interested in her ownership, has received her license. Yesterday morning Collector of Customs A. R. Milne received instructions from Ottawa to grant a license to the schooner. This action was taken as a result of the representations of the schooner's owners and agent, to show that none other than Canadian citizens were interested in the vessel. The Prescott is now lying at her wharf in the upper harbor, and will be made ready for her cruise to the Behring Sea. She is the 22nd schooner of the Behring Sea fleet. Three others are still to sail, all waiting for crews.

INDRASAMHU COMING.

Another of Portland & Asiatic Company's Fleet Coming.

The Portland & Asiatic line Indra-samhu, Capt. Horsfall—the largest of the company's fleet of three steamers—left Yokohama yesterday for this port, bringing another consignment of Chinese goods. She is expected to arrive at Victoria on Saturday. She left Yokohama on the 13th. The Indra-samhu is due here on July 12. The next outbound vessel is the Victoria, which sails today from the Outer wharf, with a heavy cargo of general freight. Capt. Dobson is in command of the Victoria, vice Capt. Panton, who is to take a holiday for a few trips. He has been on the route since the Victoria was built, and is a very experienced seaman. The Indra-samhu is a very fast steamer, and is expected to arrive at Victoria on Saturday. She left Yokohama on the 13th. The Indra-samhu reached Hongkong yesterday from this port.

"POSTED AS MISSING."

The funeral of the Overdue H. F. Glade Takes Place at London.

The funeral of the German ship H. F. Glade took place yesterday, for then the overdue grain carrier was posted as missing at Loyds. Had the ship reached port the reinsurance speculators at Cap. Dobson would have won \$120,000, and another \$50,000 would have been distributed in Victoria and other shipping points along the Coast. The posting of a ship is really her funeral. When a ship is posted as missing, the open market for a yellow blank about the size of a telegram head bearing her name, whence she sailed, port of destination and other particulars, she is dead. The ship is posted as missing at Loyds. On the day that the notice goes up requests are called to Lloyd's agents throughout the world asking them if they know anything of the overdue ship to make it known at once. The relatives of master and officers are also notified, so that if by chance they have any information concerning the doomed craft they may impart it to the world. If 14 days no word of the vessel is heard the little yellow blank is taken from its board in the inquiry room and the obscurity of the ship is ended. The name taken from Lloyd's shipping register, her tonnage is deducted from the flag to which she belonged, and every record of her that is official is wiped out. The ship is then considered as having been, and for a brief instant there is a pause in the hum and rush of the Royal Exchange in London as the old ship's bell, that for nearly a century has been tolling its tale of safety and joy, disaster and death, rings out another "total loss." There is but one instance on record, it is said, where a ship has arrived after her name has been posted as missing, and it was the Red Stock, which carried salmon from the Red Sea, and caused anxiety by jettisoning a part, that has this record. Never has one come in after Lloyd has declared her missing.

The H. F. Glade sailed from San Francisco on October 19 last for Queenstown for orders laden with a cargo of barley and grain. Since that day she towed out of the Golden Gate, out past the nine fathom buoy, and as night came down faded away where sea and sky met, and no word has been heard of her since. How far had she got on her journey? What fate was hers? Are things that men may ponder over, but none can tell. "Posted as missing" was the true verdict, and she carried on her epitaph, as they will for other ships which will never come in.

"Never was a ship insured as heavily as the Glade. Her skipper, Captain Lawson, was a careful man, and she had a good solid German crew, her officers were all trained and the ship was known as slow and sure. Again she was very foul—she had not been out of the water for 18 months—she was going to San Francisco from Kahului—and it was argued that necessarily she would make a slow passage. Upon these facts reinsurance was taken, and the ship was put up as an overdue and money was easy on her even three weeks ago. There has been but one explanation of her fate, and that is that she was improperly stowed at San Francisco. What was loading the steamer's strike that she was loaded and the story was that the green hands threw the barley portion of the cargo into the sea in a most reckless way, that it shifted and she carried it. There is not a more dangerous commodity than this if improperly stowed, for it is heavy and prone to shift. The steamer was supposed to be carrying, however, deny the report of improper stowage.

CIMBRIA ARRIVES.

Danish Bark Reaches Port in Ballast From Acapulco.

The Danish bark Cimbrina was towed into port last night by the tug Lorie, which picked her up off the Cape Horn, dropping her at San Francisco. The Cimbrina, which is a bark of 1,125 tons, commanded by Capt. Hansen, is from Acapulco in ballast. She left the Southern port of May 14, and was 42 days on her voyage to this port. The passage was an uneventful one, no vessels being seen until when off Flattery, two outboard sailers were passed.

WEARISIDE WAS ASHORE.

Grounded When Entering Port Ludlow, But Was Floated Without Damage.

The big British tug steamer Wearside, which reached this port from Junin on the 15th instant, and left for Port Ludlow to load, had a narrow escape from being wrecked at Port Ludlow.

Wearside was ashore.

cape from being wrecked at Port Ludlow. She was entering the port when she ran aground. The vessel went ashore on Tuesday at dead low water and experienced no difficulty getting afloat again with the rise of the tide. The accident resulted from the fact that the buoy marking the entrance is located inside of a long sandspit. No pilot was aboard the Wearside. The beach where she struck is soft, so it is thought no damage resulted from the mishap. The Wearside was floated off the beach with little trouble.

PAKSHIAN UNDER WATER.

Took Fire And Was Sunk in Hongkong Harbor on June 3.

Steamer Pakshian was sunk in Hongkong harbor on June 3, owing to the donkey engine valve being opened. She was on fire before sinking. These brief details of an accident to a steamer well known on this Coast were received by the Canadian-Australian line as an extra. The steamer landed little further, beyond the fact that she was not expected to be a wreck, and no lives were lost. The accident was the result of the fact that the Pakshian was one of the vessels which was brought from the China seas when the rush to the Klondike enticed so many vessels to this port. She was operated between Victoria and Northern ports for some time in 1898, and a Victoria engineer, who has been with her since during her work on the China coast, was on board at the time of the accident. Robert Shears, now first mate of one of the C. P. N. steamers, was formerly first officer of the Pakshian.

FOREIGN COMING.

Will Be An Extra Liner of the Canadian-Australian Fleet.

The British steamer Forer, which is at Kobe, Japan, to which port she took cargo from Bombay, is to leave shortly for this port, having been chartered by the Canadian-Australian line as an extra steamer to accommodate the increased freight business of that line. The Forer will arrive here about the middle of next month, as a result of the extra drought in the interior and northern wheat-growing districts of Australia. On her return voyage from Sydney, the Forer will call at Suva and load raw Fiji sugar for the British Columbia Sugar Refinery. Outward bound from this port again she will take flour and general cargo. Bookings for space on the Forer will be kept open until July 1. It is altogether probable that the Forer will make several trips on the Canadian-Australian route.

The steamer Forer, of the regular fleet, is to sail on Saturday. She will leave the Outer wharf for Australia, via Honolulu and Suva. The next inbound steamer is the Moana, which is due on July 9.

MARINE NOTES.

Steamer Tees will sail for Naas and way ports tonight, carrying a heavy freight and many passengers. Included in the cargo, which is being carried, are heavy consignments of groceries, hardware, and miscellaneous goods, being shipped by the Hudson's Bay company. The ship is being loaded at the Babine lake, and other interior ports. The steamer will also have a large amount of freight for the different canals and ports.

The work of removing Tuzo rock, which was abandoned some months ago, after much of the rock had been taken out, as a result of many months of work, is to be renewed on the first of July.

Capt. Riley has been appointed to the command of the steamer Strathcona, which is now at Nanaimo, repairing, and the crew of the steamer Ironquios has been transferred to the sternwheeler.

Steamer Quico, which has a cargo of lumber, is being loaded at Stewart lake, and is to sail for the Columbia today for Comox to load her bunker coal. The British bark Louisiana, laden with 1,070,000 feet of lumber from the mainmast for Sydney, sailed yesterday.

There is a straightforwardness about the following advertisement, culled from the daily press, that seems to be a good deal to the sort of man wanted: "All-round compositor: no sick man, nor one born of a poor family. Address Box 870, Cape Town."

Buds and Flowers of Home Life.

PAINE'S CILERY COMPOUND

MAKES AND KEEPS THE CHILDREN WELL AND STRONG.

Mothers Make It the Home Medicine For the Little Ones.

The children, God bless them, are the buds and flowers of our homes. Without their prattle and hearty laughter, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In the home and at school, the children have their times of ill-health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous and restless, and writhings of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia and indigestion. All such symptoms and ailments, mean that the seeds of disease have been sown, and that unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy and vigorous by giving them nature's medicine, Paine's Celery Compound. In many severe and complicated cases, Paine's Celery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong and rugged as they should be in time, try the health-giving virtues of Paine's Celery Compound. It makes and keeps the children well.

Richardson's Grand Ceylon Tea.

This tea is packed in 1 pound lead packets, direct from the Siamese in Ceylon, thus preserving its full strength and flavor. Awarded 1st Gold Medal, including the one at the Paris Exposition, 1900, which was given to the tea for its purity. For tea, we import this tea direct and sell it to the consumer at the lowest possible prices.
